

## Minimum Price, Maximum Dependability

### The Power of Precision

Korindo Wind has built-in advantages that allow us to offer lower overall costs than our domestic competitors in the United States. With lower costs for steel, other raw materials and operating, the landed price of Korindo Wind tower sections to project site is less than the cost of getting towers from a U.S. factory. And with Korindo Wind, you get added value throughout the process:

### Guaranteed On-Time Delivery

It costs us money to have a ship sitting in port waiting to be loaded, so whatever it takes to complete your towers on time, we'll get it done. And you'll know well in advance exactly when your sections will arrive.

### Cost Certainty

We have negotiated a maximum rate with an overseas shipping partner, so you will know your maximum cost up front and well in advance.

### Best Port Rates

Due to the volume of business we do with U.S. ports, we are able to negotiate the most competitive rate possible for your shipment.

### Fewer Inland Costs & Hassles

All of your sections will be delivered to the port closest to your project site so your inland logistics challenges, transport costs and state-by-state permitting issues will be minimized.

Korindo Wind is an ISO 14001 and ISO 9001:2000 certified manufacturer of high quality wind towers and monopiles with an 800-tower annual capacity. We have delivered more than 600 towers for U.S. projects and nearly 1,000 around the world. We consistently deliver the highest quality towers, and Korindo Wind has a perfect on-time delivery record.

### Batch Delivery

All of your sections will arrive at your site at the same time, ready to install. Your project manager will be able to schedule cranes and other heavy equipment accordingly to save on rental fees and eliminate costly down time.

### Delivery to Port or Site

In the United States, Korindo Wind has strong ties with a heavy haul partner so we can manage logistics from the port all the way to your project site.

### One Plant, One QA Professional

Korindo Wind can cost-effectively deliver high quality sections anywhere in the world. If you are pursuing projects in multiple countries, you can place one quality assurance professional at our factory rather than many in the plants of multiple suppliers.

## Let's Generate Some Power

Korindo Wind manufactures, delivers and supports wind towers with precision every step of the way, and we won't be satisfied until you are. To start your project with the precision of Korindo Wind, contact us today.
